### BUS PROPOSAL IS FAVORED BY CITY COUNCIL

Solons Assure Operator  
They Want Bus Ser-  
vice In City

### DETROIT OPERATOR WILL INCORPORATE

City Unable To Grant  
Franchise At Pres-  
ent Time

Members of city council, at their  
meeting Tuesday night, went on  
record as being favorable to the es-  
tablishment of bus lines in the city,  
as proposed by a Detroit operator.

Given this assurance by the coun-  
cilmen, Thomas E. Kirby, who is  
operating several lines in Detroit at  
the present time, announced that  
he would prepare to incorporate  
under the laws of Ohio and thereby  
enable him to legally operate in  
Salem.

Council is unable to grant him a  
franchise to operate bus lines here  
until such incorporation is made, it  
was explained. Council's action was  
merely an assurance to Kirby that  
it was desirous of granting a fran-  
chise.

Has Studied Proposition  
Councilman A. P. Morris, who,  
with Councilmen John C. Litty and  
Emory H. Taylor formed a com-  
mittee of council which studied the  
proposal since its introduction  
several weeks ago, said they had  
found that the general feeling of  
the public was in favor of the  
buses.

He said that the committee first  
had to ascertain the need of the  
bus system and, second, how it  
would fit into the traffic congestion  
situation prevalent on downtown  
State st.

He said the committee felt that  
the traffic situation could be han-  
dled all right in the "heavy seasons"  
and that they had considered the  
possible effect on taxis and came to  
the conclusion that the bus lines  
wouldn't interfere greatly with the  
taxi business.

Morris said the financial responsi-  
bility of the operator was found to  
be sound, that Kirby was experi-  
enced in his field and that he car-  
ried liability insurance of between  
\$10,000 and \$150,000.

Plan Two Lines  
Councilman-at-large Charles Rheu-  
ter said he was not against the bus  
proposal, but warned that a city  
ordinance prohibits busses from  
parking on the downtown streets.  
Most of the councilmen agreed that  
the ordinance would have to be  
amended to suit new conditions.

Under the proposal, the bus firm  
would establish two routes, or lines,  
in the city at the outset. One of  
these would be between City hospi-  
tal and the old district via E. State  
st. and S. Ellsworth ave., and the  
other out N. Ellsworth ave. to a  
point near the city limits, and re-  
turn. Twenty-minute service would  
be provided.

So-called "feeder" lines would be  
put on as the occasion demanded.

### West End Playground Plan Moves Ahead As Council Agrees To Dedicate Site

City council, at a conference last  
night with a sub-committee of Sa-  
lem organizations attempting to  
formulate a plan of procedure for  
the establishment of a West End  
playground, assured the group that  
the city would dedicate the 58-acre  
tract, with certain restrictions, for  
park or playground purposes.

Council indicated it would desig-  
nate the city park commission as  
the controlling power for the pro-  
posed park project.

Heretofore the West End park  
committee, drawn from civic, frat-  
ernal and patriotic organizations  
in the city, was handicapped in  
that it had no one to whom it  
could turn for authority or direc-  
tion as how to proceed.

Will Meet Monday  
The restrictions set down by  
council in agreeing to dedicate the  
park site, include reservations for  
possible factory sites bordering the  
railroad tracks, and water field  
rights.

The committee members who con-  
ferred with the councilmen last night  
will meet with the entire committee,  
members of the park commission  
and the city engineer next Mon-  
day night in the Elks home to re-  
port details of last night's session  
and take whatever action may be  
necessary at that time.

### SPANISH WAR FLARES ANEW

Loyalists Choose Fight  
To Finish, Is Report  
Today

(By Associated Press)  
LONDON, Feb. 8.—A British  
cruiser arrived today at  
Minorca, disputed island in the  
Spanish Balcars, while the  
London cabinet considered  
measures to prevent Italy and  
Germany from obtaining con-  
trol of the island.

PEREIGNAN, France, Feb. 8.—  
Unexpected fighting broke out to-  
day between Spanish insurgent  
forces and retreating troops in Pu-  
igcerda region near the French fron-  
tier.

The renewed fighting followed the  
breakdown of peace efforts yester-  
day and a declaration by Dr. Juan  
Negrin, premier of government  
Spain, that he would fight to the  
finish rather than submit to insur-  
gent demands for unconditional sur-  
render.

The action drew artillery and  
warplanes into battle in the snow-  
covered Pyrenees from which govern-  
ment militiamen, including in-  
fantry and cavalry units, were with-  
drawing into France.

Three insurgent planes machine-  
gunned the city of Puigcerda itself  
this morning for a period of eight  
minutes. Flying less than 200 feet  
from rooftops, their rapidfire guns  
sprayed thousands of slugs into  
streets and houses.

Spanish sources said the injured  
probably would reach more than  
100.

Troops and police were the prin-  
cipal inhabitants when the attack  
occurred.

Col. Jose Joser, Spanish govern-  
ment commander at Puigcerda, who  
arrived at the border shortly after  
the artillery duel started, said the  
withdrawal of government troops

### Highway Officials Plan Route 30 Job

LISBON, Feb. 8.—State highway  
officials are contemplating a change  
on Route 30, near Lisbon, to remove  
several steep grades and danger-  
ous curves.

According to a recently completed  
survey the proposed section starts  
at a point near the Hugh Morrow  
farm, just south of the village, ex-  
tending from there to Gilmore's  
Corners where it will intersect with  
the old route. Four miles are in-  
volved.

Officials at the headquarters in  
Leontonia were uncertain whether  
the improvement would be in-  
cluded in the department's 1939  
program.

### Distribute Rabbits Throughout County

Distribution of 1,100 rabbits in  
every township in the county by the  
Columbiana County Fish and Game  
Protective association has been  
completed. Game Warden Lon Bor-  
ling of Lisbon announced 669 of  
the rabbits for release in the county  
while the state furnished the re-  
mainder. Donations from agents  
selling hunting licenses made the  
association's purchase possible, Bor-  
ling said.

Meanwhile Solicitor Lozier Cap-  
lan is expected to prepare an ordi-  
nance dedicating the city-owned  
land for playground purposes. The  
city purchased the land, commonly  
known as the Smith farm, two years  
ago as a water field.

Council acted last night after the  
committee, with Ralph W. Hawley  
as spokesman, explained that coun-  
cil's cooperation was needed, and  
that an authoritative power be  
appointed, before the group could  
proceed successfully in its plans  
for the playlot.

Other members of the sub-com-  
mittee included Gory K. Jones, C.  
W. Kaminsky, J. Herbert Yengling,  
Robert Tubbs and Donald Mathews.  
City Engineer F. S. Barkhoff  
explained that he could make a  
sketch, or map, of the proposed  
playground and said that he  
thought the program could be  
helped by the city's WPA blanket  
street project, which is now in  
progress.

He said he believed some work  
on the park site could be included  
with the rest of the WPA schedules  
and that some of the dirt and slag  
taken from streets being improved  
could be used for roadways at the  
park.

### SEC. PERKINS DENIES CHARGE

Appears Before House Committee  
Considering Impeachment  
Resolution

(By Associated Press)  
WASHINGTON, Feb. 8.—Sec-  
retary Perkins denied flatly again to-  
day charges that she had failed to  
enforce the deportation laws.

Appearance before the house  
judiciary committee considering an  
impeachment resolution against  
her, the secretary said:

"I feel confident that whether  
examined minutely or at large my  
record as secretary of labor will  
show consistent purpose not  
merely to support the ideals of  
democracy, or orderly govern-  
ment, and of freedom, but a purpose  
to assure all persons subject to the  
government, whether citizen or  
alien, that those ideals are being  
carried forward in actual day-to-  
day practice. I have applied this to  
my administration of the immigra-  
tion laws and to the case in point."

The impeachment resolution, by  
Rep. Thomas (R-NJ), centers  
around the labor department's  
handling of deportation cases.

### Take Precautions In Flood Regions

LOUISVILLE, Ky., Feb. 8.—  
Health authorities today immunized  
thousands of eastern Kentucky  
mountain people against pneu-  
monia, influenza and typhoid—more  
feared than the overflowing streams  
which swept the hill country and  
flooded lowlands.

As rehabilitation progressed and  
the crest of the Ohio river slowly  
moved toward the Mississippi, the  
Works Progress administration was  
criticized by Representative May  
("D-Ky.") for its "indefensible re-  
fusal to cooperate" in aiding flood  
sufferers.

E. A. Marje, divisional WPA di-  
rector here, said, however, that  
the agency's workers were assisting  
in evacuation of refugees, "clean-  
ing polluted wells and cisterns and  
aiding in the repair of utilities,  
bridges and water lines."

Vaccine for 250,000 persons was  
rushed into the 30 flood-stricken  
mountain counties yesterday by  
Red Cross and Kentucky health de-  
partment authorities.

The Ohio dropped at Huntington,  
W. Va., and Cincinnati and rose  
slightly here and at down-river  
points in Kentucky and Indiana.  
Scores were driven from their  
southern Indiana homes.

H. C. Lehman, R. W. Hilgendorf,  
advisors, and eight members of the  
Salem High school Quaker staff  
attended a meeting of the Tri-  
county Association of Journalism  
Advisors at Niles Tuesday evening.

Approximately 70 staff members  
and advisors from Columbiana, Ma-  
honing, and Trumbull county high  
school publications were present.

A business meeting, program and  
lunch were features.

The association discussed and  
adopted a new constitution. The  
program included a paper on the  
preparation of material and pub-  
lication of the Quaker Annual by  
Editor John Evans.

Officers of the association are:  
President, Joseph Kelly, Struthers;  
vice president, H. C. Lehman, Sa-  
lem; and secretary-treasurer, Miss  
Partridge, Warren.

The meeting March 14 will be  
held in Struthers.

### URGE PASSAGE OF RIPPER BILL

Committee Acts Despite  
Objection of Labor  
Spokesmen

(By Associated Press)  
COLUMBUS, Feb. 8.—Despite ob-  
jections from labor spokesmen that  
they were not satisfied with con-  
cessions designed to meet their ob-  
jections to the Republican adminis-  
tration's unemployment compensa-  
tion "ripper" bill, a house committee  
today recommended the measure for  
passage.

The vote by the house committee  
on organization of state govern-  
ment was 10 to 3, with Democrats  
W. H. Winstro of Lawrence and  
Matt J. Coughlin and John J.  
Carney of Cuyahoga voting "no."  
The committee completed inser-  
tion of several amendments made  
previously by a senate committee.

### SUGGESTS U. S. KEEP AIRPLANE SECRETS HERE

Senator Nye Discloses  
Proper Legislation  
Being Prepared

### FOLLOWS OUTLINE OF WAR OFFICERS

President Denies Mili-  
tary Secrets Invol-  
ed In Sales

(By Associated Press)  
WASHINGTON, Feb. 8.—Sen-  
ator Nye (R-N. D.) disclosed today  
he was preparing legislation to  
keep for the United States alone  
the military secrets involved in  
producing and equipping war planes  
by private manufacturers.

Nye said his bill would follow  
the general outlines of a resolution  
issued last August by Louis John-  
son, assistant secretary of war, and  
Admiral William D. Leahy, impos-  
ing secrecy on the production of  
any aircraft in which the army or  
navy had an interest.

That regulation forbade demon-  
stration of planes to foreign repre-  
sentatives before the army had  
put them into use and had released  
them for general sale. It was ob-  
viated in the recent case of a  
French mission, through an order  
some senators have asserted was  
sponsored by President Roosevelt.

### Secrets Angle Denied

Nye's proposal followed disclos-  
ure by Mr. Roosevelt that this  
country was permitting the sale  
of outmoded anti-aircraft gun di-  
rectors to Great Britain but had  
declined to allow a new improve-  
ment perfected by the army to be  
included.

The President took occasion at  
his press conference yesterday to  
deny that military secrets were in-  
volved in these sales, explaining  
that the basic patents had been de-  
veloped by a British firm (Vickers)  
and had been used by an American  
firm to make the directors.

Mr. Roosevelt said the United  
States army had effected a \$250,000  
saving in the recent purchase of  
93 directors from the Sperry gyro-  
scope concern. This was possible,  
he said, because the foreign or-  
ders had enabled the Sperry com-  
pany to increase its production of  
directors from one month to one  
day. The question of including  
the army's secret improvement on  
export models was decided nega-  
tively Jan. 7, he said.

The President made it plain that  
he was discussing anti-aircraft  
gunfire directors and not detectors  
by which the approach of planes

### Ohio Penitentiary Probe May Go On For Three Weeks

COLUMBUS, Feb. 8.—Continua-  
tion of the current investigation at  
Ohio penitentiary for at least three  
weeks will be necessary, Superin-  
tendent of Corrections W. F. Am-  
rine said today.

Amrine, inquiring into reports  
that prison privileges have been  
sold and that liquor and narcotics  
have been smuggled to convicts who  
could pay for them, wants more  
time to substantiate the "leads" he  
already has obtained.

Welfare Director Charles L. Sher-  
wood, who started the investiga-  
tion, said that no action would be  
taken until Amrine submitted a re-  
port. He asserted he would not be  
content merely to correct condi-  
tions but would insist on ouster of  
any employees or officials respon-  
sible for them.

"Any person in authority who  
knew something wrong was going  
on or should have known it will be  
held accountable if the facts can  
be proved," Sherwood stated.

### Second Coming of Christ Is Theme

A sermon by Rev. Sherwood  
Weeks, pastor of the Lisbon Naz-  
arene church, featured a revival  
service at the Church of the Naz-  
arene last night.

Speaking on the subject, "Prepa-  
ration for the Second Coming of  
Christ," Rev. Weeks chose his re-  
marks from the parable of the 19  
virgins as recorded in the 25th  
chapter of Matthew.

### Death Is Probed

NORWALK, Feb. 8.—Prosecutor  
Rex F. Bracy said he would call  
the grand jury to meet early next  
week to investigate the death of  
Carl Schlett, 29, of Sandusky, who  
was found dead along a highway  
near Bellevue Jan. 27.

Coroner J. D. Bradish, who com-  
pleted an inquest yesterday, said  
he would not file a report until to-  
morrow, but announced that the  
report would confirm his earlier  
verdict of homicidal death by an  
unknown person.

Pius was reported by Vatican

which compelled him to cancel

Gen. Manuel A. Camacho

Among the best-liked officers in  
the Mexican army, Division Gen-  
eral Manuel Avila Camacho now  
is being groomed to succeed Pres-  
ident Lazaro Cardenas as presi-  
dent of Mexico in 1940. General  
Camacho recently resigned as  
secretary of national defense. An-  
other military man, Gen. Juan  
Andreu Almazan has flung his hat  
into the ring as a candidate to  
succeed Cardenas.

### RELIEF NEEDS ARE STUDIED

President's Plea For  
Funds Brings Demand  
For Scrutiny

WASHINGTON, Feb. 8.—Presi-  
dent Roosevelt's request for an ex-  
tra \$150,000,000 WPA appropriation  
brought congressional demands to-  
day for a careful scrutiny of relief  
needs.

Many legislators expressed will-  
ingness to vote for additional funds  
if the necessity was demonstrated,  
but there were indications that  
neither senate nor house would act  
quickly or without extensive in-  
quiry.

The President's request was sent  
to Capitol Hill yesterday—three  
days after he had signed the \$725-  
000,000 relief measure approved last  
week.

That bill carried \$150,000,000 less  
than Mr. Roosevelt had requested  
to operate the WPA until June 30.  
It provided that not more than  
150,000 of the present 3,000,000 WPA  
workers could be dismissed during  
February and March, and it autho-  
rized the President to ask a sup-  
plemental appropriation in event of  
an emergency.

Utilizing the emergency provision,  
Mr. Roosevelt declared that unless  
further money is appropriated,  
WPA rolls would undergo "a very  
drastic reduction" April 1.

### Cold Wave Rolls East To Atlantic

CHICAGO, Feb. 8.—A severe cold  
wave rolled eastward out of the  
Pacific northwest today, casting its  
sub-zero spell over much of the  
northern half of the nation.

By mid-morning, temperatures  
west of the Mississippi were well  
below the zero mark, while those to  
the east hovered above the freezing  
reading. Windward and Minot, N. D.,  
were the ice boxes of the nation  
with 36 below. Des Moines, Ia., re-  
corded zero.

Forester H. A. Downs of Chicago  
said the temperature would start  
falling here today and reach zero  
tonight.

The severe cold will chill Ohio to-  
night, Downs said, and should reach  
the Atlantic seaboard late tomor-  
row.

A trace of rain and some snow  
preceded the arrival of the spell in  
some middle western states last  
night.

### St. Paul's Youths Will Hold Dance

St. Paul's Catholic Young People's  
club will give a Valentine day dance  
Feb. 14 at the Elks home. Art  
White's orchestra will play for the  
affair, which will be semi-formal,  
featuring songs and music from the  
club play, "Mikol".

Friends of the members will be  
welcome.

The committee members are Car-  
men McNicol, Mary Frances Juerg-  
ens, Charles Yaeger, Robert  
Engler, Clarence Walker, Peter  
Faini, Mary Fisher and Winifred  
Ospeck.

## UNRECONSTRUCTED

Senate rejection of Floyd H. Roberts to be a Virginia federal judge adds a notch to the score of Sen. Carter Glass, the "unreconstructed rebel," against his friendly opponent in the White House.

There is more to it than a personal issue, however. A jealously guarded senatorial prerogative is the right to reject presidential appointments "offensive" to the senator concerned. Both Virginia senators were opposed to Mr. Roberts.

The senate's struggle to regain the prestige it sacrificed to President Roosevelt and the moderate Democrats' drive to keep their party from the way of the transgressor are going along side by side these days. A few more stalwarts like "Shatterproof" Glass and things would begin to look like a technical knockout.

## COMING ALONG

The rout of the loyalist forces defending Barcelona was complete by Jan. 30, the day Chancellor Hitler served notice anew that Germany and Italy had colonial ambitions at the expense of France and Great Britain.

A week later, on Feb. 6, there was ample evidence the loyalist government was falling to pieces rapidly. Its ministers were scattered. Some of them were among thousands of refugees pouring across the Spanish border into France.

That border suddenly took on new significance. Its control by the army of Gen. Franco, containing many Italian troops, completed a ring of iron about France—the same kind of "cordon sanitaire" which France had sought to place around Germany.

With the exception of the borders of Switzerland and Belgium, the French borderline now is in the hands of governments which have given France cause for apprehension. In "Mein Kampf" Adolf Hitler explains a plan whereby France is to be crowded out of European control by isolating it. Early in 1939 the plan seems to be coming along nicely.

## TRAPPED

Conviction grows that Texans inadvertently got themselves quite a chunk of governor along with the W. Lee O'Daniel old age pension plan.

Lone Star boosters have been trying to tell the country about Mr. O'Daniel's executive capacity, with scant success. The hill billy band publicity was too much for them.

But when a governor who doesn't believe in capital punishment can get his whole state to thinking about the issue simply by granting a reprieve to a condemned prisoner, he must have something on the ball.

Gov. O'Daniel turned the trick by making it appear he wanted the condemned man to stare death in the face for 30 days. He figured he could depend on his critics to forget he's opposed to capital punishment. He was right.

The result is that his critics now are trapped into his side of the issue. It looks as though there wouldn't be many dull moments in Texas politics the next few years.

## TRUCE

Spurred by announcement that TVA and Commonwealth & Southern Corp. had reached a settlement, the stock market Monday took hold of utilities issues with renewed confidence.

It was a case of feeling good because the utilities weren't going to be hit on the head with a hammer any more—they hoped. Wendell L. Wikie, president of Commonwealth & Southern, which the federal government will buy with \$78,000,000 worth of taxpayers' money, stated the case in a nutshell.

He predicted that if the new deal would pledge itself not to compete with private enterprise in the utility field in any new areas, if it would prevent further loans for non-federal competition, if it would clarify policies under the utilities holding company act, and if it would quit attacking utilities, they would be able to spend not less than a billion dollars each year for the next three or four years on new capital outlay.

Here by all odds is the most concrete, the most practical proposal for sound recovery which has been made—and that includes all of them. Give private enterprise reasonable assurance of a chance to make a fair profit without government interference, and the country will sit up and take nourishment. It's as simple as pie to everybody but the politicians who hate to think the United States might recover without them.

## SNUBBING

The fine art of international snubbing, practiced with a vengeance when Roosevelt administration ordered Ambassador Wilson to abandon his post in Germany, has been turned to use by the Soviet Republic.

Charging that Hungary is under the thumb of nations opposed to Russia, the Red government has closed its legation in Budapest and asked that the Hungarian legation in Moscow be similarly closed.

Whereas the action of the United States in calling home Ambassador Wilson was a gratuitous insult to Germany, Russia's diplomatic snub very likely is a deliberate move in the tense politics of eastern Europe.

There have been recurrent rumors of a possible understanding between Germany and Russia over the former's campaign to get control of the Balkans. Rumania and Hungary still remain uncertain quantities. Germany is trying to swing both countries into the fascist orbit.

Russia evidently has decided to force the issue by making the Hungarians and, indirectly, the Nazis

decide whether or not Hungary is to be brown or red in its ideology. Any move to placate the government at Moscow on the part of Hungary or Germany will signify there is a possibility of an understanding between German fascists and Russian communists.

Hungary, next in the path of Germany's eastward expansion, and separated from Russia by Rumania, obviously will have to do what Berlin wants it to do.

## THE STARS SAY:

For Thursday, February 9

THE PLANETARY configurations for this day denote some rather conflicting situations. There should be a great deal in the way of social, domestic or affectional gratification, but at the same time there may be a sudden visitation that will prove disagreeable and upsetting to plans and desires. This disturbance might be due to a critical, capricious and erratic state of mind. Wise counsel of an influential friend may be recommended to adjust difficulties.

Those whose birthday it is may anticipate a very lively and eventful year. Although the private affairs—domestic, social and sentimental—may bring happy adventures, there also is a hint of a sudden upset or disturbance that will interrupt the smooth running of a joyous state of affairs. This might be due to a rather critical, eccentric or singular state of mind, and might be restored to peace and harmony by the advice of a faithful and influential friend or a trustworthy elder.

A child born on this day may be energetic, adventurous and ambitious, with unusual mentality and critical faculties. It should be kindly, sympathetic and affectionate, and have much cultural grace.

## URGES UTILITY STATUTE

(By Associated Press)

OBERLIN, Feb. 8.—Prof. Ben W. Lewis of Oberlin college appealed to Gov. Bricker today to redefine the purposes of utility regulation in Ohio. He also demanded a revision of existing public utility statutes and a "changed emphasis" in the administrative policies of the state public utilities commission.

A widely-known economist and former member of the NRA advisory board, Lewis voiced his proposals in a prepared chapel address. He suggested a seven-point program in revising public utility statutes which would include:

- (1) A provision that the "fair value" on which utility investors are permitted to receive a fair return be measured hereafter by the actual prudent investment in the property instead of the cost of reproduction;
- (2) A provision that the state utility commission's accounting systems be revised and that major utility expenditures be supervised by the commission;
- (3) A requirement that the commission adopt an annual depreciation policy consistent with its policy governing depreciation reserves;
- (4) A provision for emergency ratemaking;
- (5) A provision for more adequate public representation in rate controversies involving small communities and to take care automatically of municipal rate case expenses through a charge to the operating expenses or surpluses of the utilities involved.
- (6) Establishment of a bureau of rate research within the commission's organization.
- (7) A provision to define more broadly than at present the responsibility of the commission's to make changes both in the level of rates and in rate schedules, on its own motion.

## Tuberculin Tests Urged For Students, Teachers

By LOGAN CLENDENING, M. D.

In a discussion the other night by one of the leaders of the movement to eradicate tuberculosis in the United States, he made four especially important points.

First, he emphasized the value of the use of the tuberculin test in examining all school children. High school children, and especially teachers. The reason for the examination of teachers is that tuberculosis of the lungs probably is transmitted entirely by contact from one person to another—usually from an adult to a child. The adult who is a carrier is entirely innocent and has no

Dr. Clendening will answer questions of general interest only, and then only through his column.

idea of the existence of tuberculosis. Tuberculosis may be a disease almost entirely without symptoms. The teacher ascribes the cough to nasal catarrh, nervousness, any one of a dozen things besides facing the possibility that an examination should be made.

There are many cases of teachers who have left home perfectly healthy, gone to a normal school and caught the disease from another student. Then this infected teacher is transferred to a teaching institution where she comes in contact with pupils, and a large proportion of them develop some type of tuberculosis.

## Can Be Eliminated

This can all be eliminated by insuring upon a tuberculin test for every teacher as he or she begins the vocational career.

While we can arrest tuberculosis once it is started, we cannot stop the spreading of the germs and, therefore, the only thing to do is to isolate the source of infection. This was the second point made by the tuberculosis specialist.

His third point was that the tuberculin reaction is 100 per cent efficient. If a person has had tuberculosis at any time in his life, whether active or passive, he will react positively. The tuberculin test, then, is simply the first step in determining the status of a tuberculosis individual. The second step is to have an X-ray picture of the chest made to see whether the case is "open." If it is, it should be treated.

The best method of treating an open case today is collapse of the lung, or collapse of the chest. Nothing else seems to be of permanent value.

## ACHING COLDS

Relieve Their DISTRESS This Easy, Quick Way!

To bring speedy relief from the discomfort of chest colds, muscular rheumatic aches and pains due to colds—you need more than "just a salve"—use a stimulating "counter-irritant" like good old warming, soothing Musterole. It penetrates the surface skin breaking up local congestion and pain resulting from colds. Even better than a mustard plaster—Musterole has been used by millions for over 30 years. Recommended by many doctors and nurses. In three strengths: Regular, Children's (mild) and Extra Strong. 40¢. Approved by Good House-keeping Bureau. All druggists.

## Final Step

The final step in the attack against tuberculosis is the removal of the other important source of contagion besides human beings, infected cattle. This was discussed in the article yesterday.

With these measures, the universal use of tuberculin testing, following back an infected case to the source, quarantining the source and closing open forms of tuberculosis, we may expect to reduce the incidence of tuberculosis to the vanishing point. The actual number of deaths from tuberculosis has decreased steadily, but the decrease has come virtually to a standstill

since the depression. Most communities are unable to apply universal tuberculin tests on account of economies, but in order to eradicate this plague finally, such measures will have to be adopted.

## Theatre Attractions

Virginia Bruce and Melvyn Douglas in a scene from the comedy, "There's That Woman Again," featured at the State Thursday and Friday.

"There's That Woman Again," referring to Melvyn Douglas' dim-witted detective spouse in "There's Always a Woman," will appear at the State theater Thursday and Friday with Virginia Bruce in the role introduced by Joan Blondell.

Douglas, who created the character of the wife-troubled Bill Raroban in the original romantic mystery-comedy, again plays the harassed detective.

The story opens with Douglas, as a private detective, faced with a perplexing crime problem. Daily thefts from the exclusive Nacelle jewelry company store have everybody, especially the insurance company, in a dither of excitement.

Douglas has but one major suspect, a clerk in the store. When he is about to jail his clerk, his wife, Virginia Bruce, accepts the suspect as a client. Thus Douglas finds himself faced with the dilemma of trying to prove the clerk guilty while his madcap wife is doing rather amazing things to prove him innocent.

Other Complications

In the latter connection, much to the detective's disgust, his mate gets herself mixed up in a murder and in a general robbery of the store. This serves to give serious complications to difficulties in which Douglas has become entangled.

Margaret Lindsay plays the dangerously attractive Mrs. Nacelle with Tom Dugan the role of Flannigan, Douglas' slap-happy side. Other members of the supporting cast include Gordon Oliver, Paul Harvey, Jonathan Hale, Stanley

## MOOSE KEGLERS TAKE OVER TOP SPOT IN EVENT

### Roll Into First Place In City Handicap Tenpin Tournament

First place in the five-man event of the fourth annual City Handicap Tenpin tournament belonged to the Moose keglers of the Glass A National league today as the tournament awaited its third night of action.

Sixteen of the 37 teams entered in the five-man event have already taken their shots at the Masonic temple maples. Eight more teams will be in action tonight.

The Moose moved into first place last night as they hit three games over 900 to turn in a 2828 score, including a 195-pin handicap. Mike Hutter chalked up a 556 series to pace the new leader. Every member of the team was over 500.

The Moose took the top position away from the Ohio Edison team of the American league which rolled 2760 Monday night to set the pace at the opening of the tournament.

The only other important change in the standings gave fifth place to Bossert's team of the Pastime league which used a 618-pin handicap to great advantage in rolling a 2706 score.

The Salem News of the National league had third high score last night with 2665, but the Newsies count rates no better than eighth in the standings.

The defending champion Citizens Ice & Coal team of the Pastime league fell completely out of the running by hitting only 2476.

Other scores last night were: Columbian Firestones of the Pastime league, 2661; Salem Polo Club of the Commercial league, 2644; Washingtonville Odd Fellows of the Pastime league, 2612; and Mullins Foremen of the American league, 2589.

Tonight's activity will see Smith's Creamery and the Salem Label Co. of the Commercial league, Masons "A" of the National league, and Reich Sports of the American league performing on the first shift and the Eagles of the Federal league, the Althouse Motors of the Quaker City loop, the Jr. C. of C. No. 2 of the Pastime league, and the Transformers in action on the second shift.

## Breezy Briefs Of Sport From Various Spots

By EDDIE BRIETZ

NEW YORK, Feb. 8.—Hollywood wants the Yanks to train out there this year, but it's no deal because the Yanks are committed to St. Petersburg for four years more. Charley Howard, owner of Sea-Biscuit, says the horse with the best chance to beat the Biscuit in the \$100,000 Santa Anita handicap is Kayak II. Also owned by Charley Howard. Claude Passau and Hugh Mulcahy of the Phils may get a chance to pitch for a pro team yet. The Giants are interested if the price is right. Looks like a clean bill of health for Don Meade when he applies for reinstatement on New York tracks.

The Carr Creek (Ky.) basketball team is composed of Combs and Combs, forwards; Combs, center; Combs and Combs, guards; and Combs, coach. To which the Cincinnati Times-Star says: "They'll be coming around the mountain when they comb."

The Senators appear to have the rail position in the race to sign Eric Tipton, Duke's great back and ball player. Even the New Jersey papers are weakening on Tony Galento. His four-round "knock-out" of Natle Brown rated only four paragraphs in the race to sign Eric Tipton. Duke's great back and ball player. Even the New Jersey papers are weakening on Tony Galento. His four-round "knock-out" of Natle Brown rated only four paragraphs in the race to sign Eric Tipton.

Our Bill has got the boys trained. When Clyde Clanton writes headquarters he addresses his letters: "Mr. William Terry," continues with "Dear Sir," and winds up "Respectfully Yours." Joe Gould has promised to send Tommy Farr to Des Moines to fight Johnny Paycheck if Johnny gets by Charlie Massera.

This year the Cubs will pay the salary of Manager Mickey Heath of Milwaukee to return for first choice of the Milwaukee players next fall. When the arrangement was made the Cubs planned to send Tony Lazzeri up to manage the Brewers. Tony sort of gumbled things up by asking for his release.

The Yanks haven't heard a word from Joe DiMaggio about his contract. Sam Cravens, once a great slugger, earned \$100 a week last season as an umpire in the Coast league. He did not get his contract renewed and now drives a truck at \$18 a week. Mr. Howard F. Earnest felt hot and he was hot. He stepped up to the 242-yard seventh hole at the California Country club and canned his tee shot. Then he came through with an eagle on the par 5, 509-yard eighth hole. Then he cooled off, and it was about time.

## LOUIS TO FACE VETERAN ROPER

### Champion Scheduled For Bout In Los Angeles Next April

LOS ANGELES, Feb. 8.—Plans were launched today to bring together heavyweight champion Joe Louis and veteran Jack Roper of Los Angeles in a ten-round title bout next April.

Promoter Texie Gallery announced that Mike Jacobs, New York czar of things pugilistic, had agreed to the match and would share in the promotion of Los Angeles' first championship fight in the dread-naught division.

Roper, the lefthook artist who admits to 36 years of age but who is probably the most feared heavyweight in this section of the country, takes on Junior Munsell of Oklahoma Friday night at Hollywood stadium in his last bout before the Louis match.

When it was pointed out that New York and other states do not recognize ten-rounders as title contests, Gallery laughed and replied, "Louis will take care of that. Tell me, who's been able to go 15 rounds, or even ten, with Louis recently?"

The Los Angeles promoter set April 24 as a tentative date for the bout, and intimated that if the coliseum, which seats 101,000 persons, would not be available, the fight would be staged at Wrigley field.

Roper, returning to ring combat two years ago after a long layoff, knocked out Bob Nestell and Patsy Perroni in a round apiece, and defeated Eddie Simms and Jorge Brescia during the past year.

NEW PHILADELPHIA, Feb. 8.—There are no undefeated Class A high school basketball teams in Ohio today, New Philadelphia, winner of 16 straight games, fell last night before Dover, 29 to 26, and at Akron the eight game streak of Elliot High was snapped by Stow, 34 to 32.

**Free-for-All**  
SANDUSKY, Feb. 8.—Two wrestlers and three spectators were free today under bond of \$100 each on charges of assault and battery growing out of a free-for-all melee at a wrestling show last night. The wrestlers were Dale Haddock, 32, of Chicago, and Angelo Curto of Toledo.

## PRINCES PICK UP MOMENTUM IN CAGE RACE

### Heidelberg Reaches Up From Bottom To Top Ohio Northern

(By Associated Press)

Heidelberg's Student Princes gain momentum as the Ohio conference has its mid-season basketball pace. Last night they reached up from near the bottom of the conference heap to smack down Ohio Northern's Polar Bears, 52 to 38.

Forward Bill Kuntz set the tempo for the Tiffin quintet, indulging in a 22-point individual scoring spree and at the same time setting a gym record for total units in a single game. The Princes held a 30-15 edge at the half. The victory was Heidelberg's third in eight conference starts, not including the unique 48-all tie with Toledo.

Ohio Wesleyan, third place occupant in the Buckeye loop, drubbed the luckless Dayton Flyers, 36 to 22, in a conference battle. The defeat was the fifth straight for Dayton in Buckeye competition. The Bishops were out front 22-6 at intermission.

Bowling Green came from behind to grab a 47 to 38 tiff from Findlay in another Ohio conference set-to. Findlay led at the half, 25-24. Mount Union picked up its fourth loop victory at the expense of Otterbein, 38 to 30. Forward Gordon Scott contributed 21 of Mount's points. St. Lawrence college of Canton, N. Y., required two overtime periods to put away a scrappy band of Hiram Terriers, 38 to 35. The second half ended at 32-all and the first extra session at 34-all.

Western Reserve invaded the nation's capital to take on the stalwart George Washington contingent and came out on the sorry end of a 62 to 46 count. Youngstown college of Ohio defeated Thiel at Greenville, Pa. With 12 minutes of play remaining and a 31-24 lead, Thiel sent in its second team to polish off the Ohioans—but Youngstown turned on the pressure and won, 39 to 35.

Defiance trounced Hillsdale (Mich.) college, 40 to 38, by a late scoring rally. Ohio university defeated Muskingum, 47 to 37. The University of Cincinnati breezed to a 49 to 36 win over Wilmington in a game in which 41 personal fouls were called. Four players, one from Wilmington, were ejected. Holbrook humbled Cedarville, 42 to 36.

Kent State university's quintet clashed with St. Bonaventure college at St. Bonaventure, N. Y., but emerged from a fast game on the losing side of a 39 to 27 score. Pete Gulging, Kent forward, received a leg injury in the first half that may keep him out of play the balance of the week. Kent State meets Buffalo tonight.

An unusual special match at the Grate alleys saw the Glidden Paint ladies tennis team win over the E. W. Bliss men's duckpin team, 2457 to 2089. Mrs. Frieda Orr and Miss Stella Smith led the ladies to victory with scores of 544 and 534, respectively.

## Alliance Fighter Uses Lightning Lefts To Win Decision Over Sharkey

### Weekly Takes Seven of 10 Rounds In Feature Bout Of Junior Chamber of Commerce Card; Crowd Of 700 Fans Watches Good Show

By JACK BALLANTINE

The machine-like left jab and clever defense of Harry Weekly of Alliance, the Ohio lightweight champion, gave professional boxing a fresh start in Salem before nearly 700 fight fans who jammed the Memorial building last night to witness an all professional card sponsored by the Junior Chamber of Commerce.

Displaying the finest straight left seen in these parts in many a year, the 24-year old Weekly brought the four bout show to an unusually successful climax by clearly out-pointing Ray Sharkey, 22-year-old Cleveland lightweight and former Golden Gloves champion, in the 10-round feature battle.

The fans received the bout exactly as it was—a splendid exhibition of boxing skill by a clever fighter on one side and a puncher on the other. The puncher dropped the decision, mainly because he could not fight his opponent's fight and as a result could not break through his rival's defense to land a knockout blow.

Sharkey was the puncher, and although he failed to receive the nod, he deserves due credit for one of the gamest fights ever staged in a local ring. The pug-faced Clevelander absorbed continual punishment during the 10-round bout, taking lefts after left on the face, but he came back every time, ready for more.

The effects of Weekly's precision lefts, thrown constantly from start to finish, showed first in the seventh round when Sharkey's eye began bleeding from a cut opened by Weekly's consistent jabs.

Unable to fight his own game, Sharkey never had a chance to take the decision. Judges John Stratton and Roscoe Gallagher and Referee Jimmy Jones of Youngstown, were unanimous in awarding the decision to Weekly. The Salem News score card gave seven rounds to Weekly, one to Sharkey and called two even.

Not until the tenth round did Sharkey show signs of being able to break through Weekly's tight defense to land a telling blow. From the first frame until the tenth, the Clevelander's only chance to send home solid punches came when Weekly was off guard after throwing a left or right cross at Sharkey's face.

Knowing that his lone chance to win rested with a knockout, Sharkey resorted to a weaving style and tossed looping rights to outscore the Alliance fighter in the final round.

Throughout the early stages of the bout Weekly consistently landed left jabs to pile up points while keeping away from Sharkey's looping rights with a clever defense. Weekly took the first three rounds easily, landing left after left on Sharkey's face and altering his attack to the Clevelander's mid-section on several occasions.

Sharkey became more aggressive in the fourth round and, although he took a hard beating in the mid-section early in this heat, he came back to catch Weekly with several right hooks which allowed him to get an even break.

Weekly landed the hardest punch of the early fighting in the fifth when he caught Sharkey near the ropes with a short right hook after wearing the Clevelander down with a series of left jabs.

The Alliance lightweight continued to hold the advantage in the fifth, opening a cut over Sharkey's left eye early in this round. Aiming his attack at Sharkey's bad eye, Weekly scored beautifully in the seventh with a right cross, followed a second later by a hard straight left to Sharkey's face.

The eighth was all Weekly, but in the ninth Weekly appeared to be tiring somewhat and Sharkey showed enough aggressiveness to call the round even. Weekly took more punches in the tenth than he did in any other sound as Sharkey

threw precaution to the winds and drove in to attempt to connect with a knockout punch.

Featuring three six-round preliminary bouts was a lively 126-pound battle between Bill Miller of Alliance and Elly Clark, Buffalo N. Y. Negro. The bout was a real crowd-pleaser with the judges agreeing with the fans by calling the affair a draw.

Miller, who appeared the better of the two on defense but lacked the aggressiveness of Clark, won the second and third heats while the Buffalo Negro took the first and fourth rounds. The fifth and sixth frames were even.

In the curtain-raiser, Tiger Flowers of Canton piled up enough points to win six bouts, but the judges awarded the decision to his opponent, Jackie Fields of Buffalo, who was barely able to stand on his feet at the end of the six-round battle. Flowers, in addition to winning the first round, took the last three heats by a wide margin.

Al Muer of Canton gained a technical knockout over Joe Valentine of Harrisburg in the semi-final bout, which developed into a sad exhibition of boxing by two fighters in poor condition. Valentine became sick in the fifth round and was unable to continue the fight.

Except for the semi-final, the show arranged by Jimmy Perry was a splendid success and a credit to the professional boxing game and its return to Salem.

## HULL REMAINS SCORING BOSS

### Continues To Lead Race For Point-Making Title In Big Ten

COLUMBUS, Feb. 8.—Ohio State's Buckeyes found the league-leading pace too hot to handle, but Jimmy Hull, the team's star forward, still is showing the way in the Big Ten race for individual scoring honors.

Minnesota slowed Hull down to seven points Saturday, but on Monday he bounced back with 14 against Indiana in a vain effort to prevent the Hoosiers from replacing Ohio State as the leader of the conference.

These 21 points gave Hull a total of 102 points in seven games, an average of 14.5 per start, easily the best in the circuit.

Louis (Pick) Dehner, Illinois center, held onto second place with 81 points by hitting the hoop for 17 points against Iowa in his only game of the last seven days. Capt. Ben Stephens of Iowa took over third place by scoring 21 tallies in two games for a total of 77 points.

## SPANISH WAR FLARES ANEW

Loyalists Choose Fight To Finish, Is Report Today

(Continued from Page 1)

Would continue despite the fighting. They characterized the action as an attempt to "cover" rear guard government troops from too hasty advances by insurgents maneuvering in the mountains within sight of Puigcerda.

After peace overtures failed yesterday to bring the two sides to a settlement, the government went ahead with its decision to defend the one-fourth of Spain still in its hands to the last inch rather than surrender.

Spanish government dispatches reaching the border said Gen. Jose Miaja, "savior of Madrid," considered the defense of the Madrid-Valencia front still strong and that he was determined to carry on the conflict.

Neutral military observers believed, however, that the insurgents' superiority in men and material was certain to win eventually. Insurgent warships and planes were reported already to be tightening their blockade of the central Mediterranean.

## King Winter's Queen Opens Nine-Day Sports' Carnival

Miss Jean McCluskey

By KANE, PA.—The "most beautiful" can't be merely beautiful these days. She has to be an outdoor girl, too. That was the qualification which won for Miss Jean McCluskey the title of "King Winter's Queen," presiding over the Western Pennsylvania Winter Sports' Carnival.

Norman Rockwell, illustrator, made the choice from pictures of girls dressed in ski clothes.

The nine-day carnival includes ski-jump championships, snow picnics, skating events and the Niagara Frontier Ski Council championships, with 11 clubs from Canada, western New York and Pennsylvania competing.

presented to council last night by Fire Chief Harvey Hisey, council favored the plan for the local department to share the Fairfield township territory with the Leetonia fire department. The township will pay the towns for each call and this plan will give

protection to all Fairfield township residents. This action was taken following a request from the Fairfield township trustees. Council passed a resolution for the resurfacing of a number of local streets which will be started when weather permits in the late spring.

## WOULD ABOLISH TAX COMMISSION

Bill Would Put Administrator At Head of System

(Continued from Page 1)

favored postponing indefinitely plans to revamp the two-member civil service commission.

Whittemore said he suggested further conferences with Gov. John W. Bricker.

"I don't feel that the necessity for reorganizing the civil service laws is as great as in some other departments," he explained.

While the tax commission reorganization bill would give the commissioner broad authority to administer the system, the proposed board of appeals could modify his rules, Whittemore said.

The commissioner's salary would be \$7,500 a year. The board members would have terms of about six years and would be paid in the neighborhood of \$5,000.

The number of deputy commissioners would be reduced from 15 to 5.

Another provision would permit appeals of taxpayers from local boards of revision to go directly to the courts instead of to the tax commission, as at present.

The \$12,600,000 school foundation appropriations bill went to the senate today after receiving the house's unanimous approval. The funds are for financing January, February and March operations of the schools.

While senate leaders scheduled a vote tomorrow on the administration bill to abolish the unemployment compensation commission and put an administrator at the head of the insurance system, a group of house Democrats headed by Rep. W. H. Whetor (D-Lawrence) asked creation of a committee to investigate the advisability of changing the setup.

Protests against a bill which would permit municipalities to use automobile license fee revenue for traffic control, thus helping their general funds meet relief expenses, poured into the senate motor vehicles committee from automotive, petroleum and good roads association representatives.

The bill would double, at the expense of the counties, the share of the tag revenue now received by the cities. The municipalities get 25 per cent and the counties 47.

## Jackie and Betty Awaiting Reunion

HOLLYWOOD, Feb. 8.—The story of the life, love and troubles of Jackie Coogan moved closer today to the traditional Hollywood "happy ending."

Separated by finances and the long miles between here and Texas, "The Kid" of the silent screen and his beautiful blonde actress wife, Betty Grable, planned a reunion in a hospital in nearby Glendale where last night she underwent a successful operation for appendicitis.

Coogan was flying from Port Worth to her bedside and Betty, who wouldn't submit to the surgery unless he said the word, was waiting for him happily.

Thus, with his much-involved financial affairs near a settlement, the youth who made a fortune as a screen juvenile only to charge that it had been taken from him, was on the verge of straightening out his marital affairs, too. They separated five weeks ago.

## Hospital Insurance Plan Gains Favor

CLEVELAND, Feb. 8.—The American Hospital association reported today nearly 3,000,000 persons participating in non-profit hospitalization insurance under its sponsorship. It predicted 500,000 hospital bills, totaling \$25,000,000 would be paid by non-profit organizations during 1939 to 600 member hospitals throughout the nation.

The number of participants increased 100 per cent in 1938, the association's director of hospital service, Dr. C. Rufus Rorem of Chicago, said at a national conference of the group hospitalization executives.

The plans require a small periodical contribution by participants in return for guaranteed hospital care in case of illness.

## Accident Is Fatal To Bill Cummings

INDIANAPOLIS, Feb. 8.—William C. (Wild Bill) Cummings, whose daring prowess was well known on automobile race tracks from coast to coast, died today of injuries suffered Monday night when his automobile skidded from a highway at the approach of a bridge, hurtling 50 feet across a creek below the highway. He was 32.

The accident occurred while Cummings was driving alone from Indianapolis to his suburban home south of the city.

His skull was fractured. An operation was performed yesterday to relieve pressure on the brain but the race driver, winner of the 500-mile classic at the Indianapolis motor speedway in 1934, died this morning without regaining consciousness.

HONOLULU—Just why a sailor should want to climb a drain pipe and go out the top of a building and go to sleep there is a problem in nautical psychology that the police department is trying to solve. The problem is one of particular interest to the police, because in the case under investigation a policeman had to climb the same drain pipe to awaken and arrest the sailor.

## GLASS DRAFTS REPLY TO F.D.R.

Senate's Rejection of Judgeship Appointment Brought Letter

(By Associated Press)

WASHINGTON, Feb. 8.—Senator Glass (D-Va.) drafted a sharp reply today to a presidential letter criticizing senate rejection of Floyd H. Roberts for a federal judgeship in Virginia.

Friends said Glass was incensed over the letter, which Mr. Roosevelt wrote Roberts yesterday. It termed statements of Glass untruthful and declared the constitution does not give veto power to one or two senators.

Acting on objections by the two Virginia senators, the senate voted 72 to 9 Monday to reject Roberts' nomination. Glass and Byrd, contending their recommendations for the appointment had been ignored, had argued that Roberts' nomination was "personally offensive" to them.

In his 2,000-word letter to Roberts, Mr. Roosevelt emphasized that no question had been raised of the judge's ability of qualifications, and referred to the 150-year-old custom of "senatorial courtesy."

Had the constitution intended to give one or two senators the right to veto presidential nominations, Mr. Roosevelt said, "it would have said so."

"Or put it another way," he wrote, "it would have vested the nominating power in the senators from the state to which the vacancy existed."

"On somewhat rare occasions the senate, relying on an unwritten rule of senatorial courtesy, which exists in no place in the constitution, has rejected nominees on the ground of their being personally obnoxious to their senators, thus vesting in individual senators what amounts in effect to the power of nomination."

Glass had charged that Mr. Roosevelt promised governor Price of Virginia "the right of veto" over recommendations of appointments made by the two Virginia senators. For this reason, Glass said, the justice department "never had the slightest idea" of considering his and Byrd's recommendations for the judgeship.

## PROTECTION OF SECRETS URGED

Sen. Nye Says U. S. Should Guard Airplane Plans

(Continued on Page 8)

is made known. He said if this government had such a detector, it was a secret and was going to remain so.

### Critiques Reports

Mr. Roosevelt sharply criticized what he called the known source (presumably on Capitol Hill) of recent published reports that the administration was letting military secrets be divulged to other countries.

It is a raw deal for the press and the public, he declared, when someone gives a reporter misinformation. He made this statement in calling a fake one report that up-to-date anti-aircraft gunfire directions were being sold to Britain. He blamed the source of the information and said there was no question of the patriotism of the reporter who wrote the story.

Mr. Roosevelt said a certain president, "who would not allow his name to be used," had a fit when he read the story. His phraseology was a shaft at senators who have commented on foreign affairs without letting their names be used.

Senator Nye, by proposing to safeguard plane secrets, said he hoped to obtain an expression from Congress on what he described as one of the major issues involved in a week's controversy over foreign relations—whether France or any foreign government should be permitted to buy in this country planes embodying the latest developments available to American military forces.
